

I am an artist in my arms -

I create swirls and patterns

that haven't been invented on the page.

I'm a sculptor in my hands -

I shape my future.

I am a designer in my mind -

I see colours that match.

I am a scientist in the way I think

-

I think outside of the box.

In my legs I am a runner.

In my feet, I am a goal scorer.

When I rest,

I listen

and when I have ideas, I speak.
