

## Tracy Beaker

Tracy Beaker is ten years old; she has black curly hair and brown eyes. She lives in a children's home. She sometimes has behaviour problems and likes to get her own way. When she is angry she screams and stamps her feet. She says funny things which make me laugh. She makes fun of her foster mother and she likes to play around. She likes writing imaginary stories about her real mum. I watch the story of Tracy Beaker every morning before I go to school. It is my favourite programme and she is my favourite character.
