

# Tyrannosaurus Rex

## King of the Dinosaurs

T Rex was the same size as a bus when standing with its body horizontal. In addition, when it stood erect, it was the same size as a double decker bus. A male was much larger than a female and definitely more aggressive. If any other T Rex went near his family he would growl and attack rapidly.

T Rex's arms were the same size as the Incredible Hulk. It was one of the strongest lizards to ever walk the earth - its bite force was stronger than 59 crocodiles.

The only thing that would stand a chance in a fight with T Rex was Titanoboa, Spinosuarus and Baryonix.
